

# Naveed Ahmad

## FRONT-END & MERN STACK DEVELOPER

 Pakistan  naveedmian0342@gmail.com  GitHub  LinkedIn

### SUMMARY

Design-minded and code-focused Web Developer specializing in the MERN stack. Proficient in building clean, responsive, and dynamic web applications using JavaScript, React, and Express. I care about how a page reads, how it adapts to different screens, and how the small details come together. Always learning and improving one thoughtful step at a time.

### SKILLS

#### Web Essentials

HTML, CSS, JavaScript (ES6+)

#### MERN Stack

MongoDB, Express.js, React, Node.js

#### Front-End Tools

React, Bootstrap, Git

#### Core Principles

Responsive Design, RESTful APIs, Clean Code

### PROJECTS

#### Personal Portfolio Website

HTML, CSS, JavaScript

- Designed and developed a fully responsive portfolio website from scratch.
- Implemented accessible navigation, smooth scrolling, and modern UI interactions.
- Integrated a functional contact form using EmailJS for secure message delivery.

### EDUCATION

#### Bachelor of Science in Computer Science (BSCS)

Government College University Faisalabad (GCUF) • 2025 – Present

- Started degree in 2025 with a focus on web technologies and software engineering.
- Relevant Coursework: Web Development, Object-Oriented Programming, Database Management.

### VALUES

01. Clear by design

02. Responsive from the start

03. Always learning
